

The Friday Notes

Celebrating 227 Years!
October 14, 2016

Principal's Corner

Beginning next week we will be implementing a new Visitor Management System for anyone entering West Side School. This system is state of the art and will streamline the sign in/out process. It is the same system currently used at the high school. The new system works as follows: The first time you visit West Side you will be asked to produce a valid New York State Driver's License which will be scanned. A photograph will be taken of the visitor which will be displayed on the visitor's pass. The pass includes the date, time of entry and the location to be visited. As we move forward with this process, it is imperative that entry and exit are done through the Airplane Wing. The visitor pass has a barcode that must be scanned upon exiting the school to be cleared from the system. Failure to do so will lead to a delay in entering the building upon your next visit to West Side. The process described above will only apply on the visitor's first visit to West Side and takes only a few minutes. On all subsequent visits, the parent/guardian will simply inform the security officer at the desk of his or her last name which will be in the system and a pass will be automatically produced. We thank you in advance for your patience and cooperation in this matter as the safety of our students is paramount.

Growth Mindset Speaker Series

Be on the lookout for a flyer from the School Improvement Team in the weeks to come. We are searching for parents and teachers to share their experiences of exhibiting a growth mindset and grit to achieve their goals. The task will be to speak to a class and share your story.

Pick-Up Notes

Please remember that all pick-up notes should be given to your child's teacher. We ask that you send in two (one for the teacher and one for the bus driver/pick-up circle). Pick-up notes should not be e-mailed to the main office as we cannot guarantee that your child's teacher will receive the update. Please call the main office if you have an emergency.

1. Feel the door to check if it's HOT!
If it's Not Hot open the door slowly,
bracing it with your knees and

shut quickly if there's smoke and fire
on the other side.

2. If the door is blocked by smoke
or fire, leave through a window
or secondary emergency route.

3. Once out of the house go

SMOKE DETECTORS

Most fatal residential fires occur while the occupants are asleep. Installing smoke detectors outside bedroom areas will provide the extra minutes of warning needed to escape. The most recent figures available from the National Fire Incident Reporting System indicates that the installation of a Smoke Detector will double your chance of survival during a fire.

DEVELOPING THE PLAN

Members of the family should work together to draw a plan of each floor of your house where bedrooms are located.

Your plan should include:

- The location of Smoke Detectors.
- Two escape routes; one for normal and one for Emergency use.
- All doors, windows, stairways, fire escapes and adjacent buildings.
- A central meeting place outside your home.

If a window is designated as an Emergency Route, make sure the person who uses it is able to reach and unlock the window, remove the screen and / or the storm window, reach the ground safely.

Designate someone to call the fire department from a neighbor's house. Post a copy of your finished plan in a conspicuous place as a constant reminder.

PRACTICE YOUR PLAN ON A MONTHLY BASIS AND REMEMBER THESE IMPORTANT HINTS:

- Sleeping with bedroom doors closed can add valuable minutes of protection against flame, smoke and toxic gases.
- If you have a telephone in your room, have the Fire Department's number on it or nearby.
- Keeping a whistle, horn, or other such audible signal near your bed may prove valuable in waking other members of your family who may not hear the smoke detector. If family members use a different signal you will know who is awake without opening doors.

**MAKE
OPERATION E.D.I.T.H.
A MEMBER OF YOUR FAMILY!**

PUTTING THE PLAN INTO ACTION

If the smoke detector sounds or you smell smoke, wake your family with your signal. If you hear another signal answer with yours. Keep Calm. Roll out of bed and crawl to the door. Feel the door from bottom to top. If it is hot near the top do not open it. Proceed to your designated emergency exit.

If the top of the door is not hot, brace your foot and shoulder against it and open it carefully. If there is only light smoke, crawl to the normal exit. If the smoke is dense or the door is hot use the Emergency Exit. Report to the designated meeting place.

Notify the Fire Department from a neighbor's house. **DO NOT ALLOW ANYONE TO RE-ENTER THE BUILDING FOR ANY REASON.**
